Work History

Front End Developer (Remote)

08/2023 to Current

Vas2net Financial Services(VFS) – Lagos, Nigeria

- I am collaborating closely with other software developers and designers on the development of new products at Vast2Net, specifically focusing on **Spen**(myspen.com).
- Single-handedly built Spen website from conception to completion
- I created and enhanced layouts to align with usability and performance criteria with NextJs 13.
- I provided suggestions for the adoption of emerging technologies, considering their appropriateness and alignment with our business objectives.
- I'm currently in the process of learning Angular, the framework used to build the SPEN dashboard.

Front End Developer (Remote)

12/2022 to Current

Passpoint – Lagos, Nigeria

- Produced websites compatible with multiple browsers.
- Single-handedly built Passpoint website from conception to completion
- Designed and updated layouts to meet usability and performance requirements.
- Developed designs to meet specific requirements such as quick-loading sites with particular layouts.
- Collaborated with in-house web designers to create sleek and innovative UI design.

- Working together with two additional developers on the passpointGo (under development) and admin dashboards.

Front End Developer and Facilitator (Hybrid)

10/2022 to Current

African Trainovation Consulting – Abeokuta, Nigeria

- Single-handedly built ATC Steam website from conception to completion
- Worked in Agile-driven environment to effectively maintain project timelines and utilize available resources.
- As a facilitator, I instructed pupils in HTML, CSS, Javascript, and ReactJS.
- Tracked student progress, frequently checking in with struggling students and identifying root causes of problems.
- Developed and maintained courteous and effective teaching relationships with students.

Front End Engineer

08/2021 to 06/2023

Grazac – Abeokuta, Nigeria

- Planned website development, converting mockups into usable web presence with ReactJs.
- Multi-tasked across multiple functions and roles to generate project results and meet deadlines and organizational expectations.
- Modified existing code written with ReactJs vs16.
- worked on a handful of front-end apps and was the front-end engineer for grazac academy website.
- Built admin dashboard for product, where all charges are sets, transactions and customers are tracked.
- I collaborated on various projects since the company specializes in website development for a wide range of products like **usevast.com** admin dashboard, **everythingmiddleman.org** website etc

Front End Developer (Contract)

10/2022 to 01/2023

PhastPay – Lagos, Nigeria

- Worked in Agile-driven environment to effectively maintain project timelines and utilize available resources.
- Managed full-cycle design tasks, handling phases from conception to completion while maintaining guidelines throughout.
- Produced websites compatible with multiple browsers.
- Designed and updated layouts to meet usability and performance requirements.
- Worked alongside developer for complete design and implementation of all UI designs .

Education

Bachelor of Science: Mechanical Engineering

2021

Olabisi Onabanjo University - Ago Iwoye
